IPHONE

Use these instructions to turn a picture already in your camera roll into a PDF

- 1. Open your photos app on your iphone
- 2. Click on the specific picture you would like to turn into a PDF
- 3. Select the send icon on the bottom left side of your screen (see example below)

4. Once you select the send icon, you will see this page & you will scroll down

5. Scroll down and select "Print"
